					Initials	Date	Remarks
AIR QUALITY							
1	<p>Prior to ground disturbance activities, the project operator shall provide evidence to the Community Development Director that the project operator and/or construction manager has developed a “Valley Fever Training Handout”, training, and schedule of sessions for education to be provided to all construction personnel. All evidence of the training session materials, handout(s) and schedule shall be submitted to the Community Development Director within 24 hours of the first training session. Multiple training sessions may be conducted if different work crews will come to the site for different stages of construction; however, all construction personnel shall be provided training prior to beginning work. The evidence submitted to the Community Development Director regarding the “Valley Fever Training Handout” and Session(s) shall include the following:</p> <p>a. A sign-in sheet (to include the printed employee names, signature, and date) for all employees who attended the training session.</p> <p>b. Distribution of a written flier or brochure that includes educational information regarding the health effects of exposure to criteria pollutant emissions and Valley Fever.</p> <p>c. Training on methods that may help</p>	Prior to any ground disturbing activities.	A copy of all training session materials, handout(s), and schedule shall be provided to the Community Development Division	Community Development Department (Planning)			

Mit. No.	Mitigation Measure/ Conditions of Approval	Monitoring Milestone (Frequency)	Method of Verification	Party Responsible for Monitoring	VERIFICATION OF COMPLIANCE		
					Initials	Date	Remarks
	<p>prevent Valley Fever infection.</p> <p>d. A demonstration to employees on how to use personal protective equipment, such as respiratory equipment (masks), to reduce exposure to pollutants and facilitate recognition of symptoms and earlier treatment of Valley Fever. Where respirators are required, the equipment shall be readily available and shall be provided to employees for use during work. Proof that the demonstration is included in the training shall be submitted to the county. This proof can be via printed training materials/agenda, DVD, digital media files, or photographs.</p> <p>The project operator also shall consult with the Los Angeles County Public Health Department to develop a Valley Fever Dust Management Plan that addresses the potential presence of the Coccidioides spore and mitigates for the potential for Coccidioidomycosis (Valley Fever). Prior to issuance of permits, the project operator shall submit the Plan to the Los Angeles County Public Health Department for review and comment. The Plan shall include a program to evaluate the potential for exposure to Valley Fever from construction activities and to identify appropriate safety procedures that shall be implemented, as needed, to minimize personnel and public exposure to potential Coccidioides spores. Measures in the Plan shall include the following:</p>						

Mit. No.	Mitigation Measure/ Conditions of Approval	Monitoring Milestone (Frequency)	Method of Verification	Party Responsible for Monitoring	VERIFICATION OF COMPLIANCE		
					Initials	Date	Remarks
	<p>a. Provide HEP-filters for heavy equipment equipped with factory enclosed cabs capable of accepting the filters. Cause contractors utilizing applicable heavy equipment to furnish proof of worker training on proper use of applicable heavy equipment cabs, such as turning on air conditioning prior to using the equipment.</p> <p>b. Provide communication methods, such as two-way radios, for use in enclosed cabs.</p> <p>c. Require National Institute for Occupational Safety and Health (NIOSH)-approved half-face respirators equipped with minimum N-95 protection factor for use during worker collocation with surface disturbance activities, as required per the hazard assessment process.</p> <p>d. Cause employees to be medically evaluated, fit-tested, and properly trained on the use of the respirators, and implement a full respiratory protection program in accordance with the applicable Cal/OSHA Respiratory Protection Standard (8 CCR 5144).</p> <p>e. Provide separate, clean eating areas with hand-washing facilities. Install equipment inspection stations at each construction equipment access/egress point. Examine construction vehicles and equipment for excess soil material and clean, as necessary, before equipment is moved</p>						

Mit. No.	Mitigation Measure/ Conditions of Approval	Monitoring Milestone (Frequency)	Method of Verification	Party Responsible for Monitoring	VERIFICATION OF COMPLIANCE		
					Initials	Date	Remarks
	<p>off-site.</p> <p>f. Train workers to recognize the symptoms of Valley Fever, and to promptly report suspected symptoms of work-related Valley Fever to a supervisor.</p> <p>g. Work with a medical professional to develop a protocol to medically evaluate employees who develop symptoms of Valley Fever.</p> <p>Work with a medical professional, in consultation with Los Angeles County Public Health, to develop an educational handout for on-site workers and surrounding residents within three miles of the project site, and include the following information on Valley Fever: what are the potential sources/ causes, what are the common symptoms, what are the options or remedies available should someone be experiencing these symptoms, and where testing for exposure is available. Prior to construction permit issuance, this handout shall have been created by the project operator and reviewed by the project operator and reviewed by the Community Development Director. No less than 30 days prior to any work commencing, this handout shall be mailed to all existing residences within a specified radius of the project boundaries as determined by the Community Development Director. The radius shall not exceed three miles and is dependent upon the location of the project site.</p> <p>a. When possible, position workers</p>						

Mit. No.	Mitigation Measure/ Conditions of Approval	Monitoring Milestone (Frequency)	Method of Verification	Party Responsible for Monitoring	VERIFICATION OF COMPLIANCE		
					Initials	Date	Remarks
	<p>upwind or crosswind when digging a trench or performing other soil-disturbing tasks.</p> <p>b. Prohibit smoking at the worksite outside of designated smoking areas; designated smoking areas will be equipped with handwashing facilities.</p> <p>c. Post warnings on-site and consider limiting access to visitors, especially those without adequate training and respiratory protection.</p> <p>d. Audit and enforce compliance with relevant Cal OSHA health and safety standards on the job site.</p>						
BIOLOGICAL RESOURCES							
2	The project applicant shall obtain a Western Joshua Tree Conservation Act permit from the California Department of Fish and Wildlife to remove the Joshua trees on the project site. As part of obtaining the Western Joshua Tree Conservation Act permit, the project applicant shall follow all measures outlined in the executed permit and pay all mitigation fees identified under the Western Joshua Tree Conservation Act. A copy of the fully executed permit shall be provided to the City of Lancaster prior to the issuance of any construction-related permits.	Prior to the issuance of any construction-related permits.	A copy of the fully executed permit shall be provided to the City of Lancaster prior to the issuance of any construction-related permits.	Community Development Department (Planning)			
3	The project applicant shall obtain a permit from the California Department of Fish and Wildlife	Prior to the issuance of any construction-	A copy of the permit shall be submitted to	Community Development			

Mit. No.	Mitigation Measure/ Conditions of Approval	Monitoring Milestone (Frequency)	Method of Verification	Party Responsible for Monitoring	VERIFICATION OF COMPLIANCE		
					Initials	Date	Remarks
	for the removal of the dead Joshua trees prior to any ground disturbing activities. A copy of the permit shall be submitted to the City.	related permits.	the City.	Department (Planning)			
4	<p>A pre-construction burrowing owl clearance survey shall be conducted no more than 30 days prior to any vegetation removal or ground disturbing activities to avoid impacts to burrowing owls and/or occupied burrows. The pre-construction clearance survey shall be conducted by a qualified biologist and in accordance with the methods outlined in the Staff Report on Burrowing Owl Mitigation (California Department of Fish and Game 2012). Documentation of surveys and findings shall be submitted to the City of Lancaster for review and file. If no burrowing owls or occupied burrows are detected, project activities may begin, and no additional avoidance and minimization measures shall be required.</p> <p>If an occupied burrow is found outside, but within 500 feet, of the development footprint, the qualified biologist shall establish a “no-disturbance” buffer around the burrow location(s). The size of the “no-disturbance” buffer shall be determined in consultation with CDFW and be based on the species status (i.e., breeding, non-breeding) and proposed level of disturbance. If an occupied burrow is found within the development footprint and cannot be avoided, a burrowing owl exclusion and mitigation plan shall be prepared and submitted to CDFW for approval prior to initiating project activities.</p>

					Initials	Date	Remarks
5	A nesting bird survey shall be conducted by a qualified biologist within 14 days prior to the start of any construction/ground disturbing activities. The qualified biologist shall survey all suitable nesting habitat within the project impact area, and areas within a biologically defensible buffer zone surrounding the project impact area. If no active bird nests are detected during the clearance survey, project activities may begin, and no additional avoidance and minimization measures shall be required. If an active bird nest is found, the species shall be identified, and a “no disturbance” buffer shall be established around the active nest. The size of the “no disturbance” buffer shall be increased or decreased based on the judgement of the qualified biologist and level of activity and sensitivity of the species. At a minimum, the buffer shall be at least 500 feet around active raptor nests and 50 feet around nests of migratory bird species. The qualified biologist shall periodically monitor any active bird nests to determine if project-related activities occurring outside the “no-disturbance” buffer disturb the birds and if the buffer shall be increased. Once the young have fledged and left the nest, or the nest otherwise becomes inactive under natural conditions, project activities within the “no-disturbance” buffer may occur following an additional survey by the qualified biologist to search for any new bird nests in the restricted area.	Within 14 days prior to the start of any construction/ground disturbing activities.	A copy of the nesting bird preconstruction survey results shall be provided to the City of Lancaster.	Community Development Department (Planning)			

CULTURAL RESOURCES

Mit. No.	Mitigation Measure/ Conditions of Approval	Monitoring Milestone (Frequency)	Method of Verification	Party Responsible for Monitoring	VERIFICATION OF COMPLIANCE		
					Initials	Date	Remarks
6	In the event that cultural resources are discovered during project activities, all work in the immediate vicinity of the find (within a 60-foot buffer) shall cease and an archaeologist meeting the Secretary of Interior's professional qualification standards in archaeology shall be hired to assess the find. Work on the other portions of the project outside of the buffered area may continue during this assessment period. Additionally, the Yuhaaviatam of San Manuel Nation Cultural Resources Department (YSMN) shall be contacted, as detailed within TCR-1, regarding any pre-contact and/or historic-era finds and be provided information after the archaeologist makes his/her initial assessment of the nature of the find, so as to provide Tribal input with regards to significance and treatment.	During construction/ ground disturbing activities.	Notification of the City of Lancaster and appropriate tribal entities.	Community Development Department (Planning)			
7	If cultural resources are discovered during project activities, all work in the immediate vicinity of the find (within a 60-foot buffer) shall cease and a qualified archaeologist meeting Secretary of Interior standards retained by the project applicant shall assess the find. Work on the portions of the Projects outside of the buffered area may continue during this assessment period. Should the find be deemed significant, as defined by CEQA (as amended, 2015), the Project applicant shall retain a professional Tribal Monitor procured by the FTBMI to observe all remaining ground-disturbing activities including, but not limited to, clearing, grading, excavating, digging, trenching, plowing, drilling, tunneling, quarrying, leveling,	During construction/ ground disturbing activities.	Notification of the City of Lancaster and appropriate tribal entities.	Community Development Department (Planning)

	driving posts, auguring, blasting, stripping topsoil or similar activity, and archaeological work.						
8	The Lead Agency and/or applicant shall, in good faith, consult with the FTBIM on the disposition and treatment of any Tribal Cultural Resource encountered during all ground disturbing activities.	During construction/ ground disturbing activities.	Notification of the City of Lancaster and appropriate tribal entities.	Community Development Department (Planning)			
9	If significant pre-contact and/or historic-era cultural resources, as defined by CEQA (as amended, 2015), are discovered and avoidance cannot be ensured, the archaeologist shall develop a Monitoring and Treatment Plan, the drafts of which shall be provided to YSMN for review and comment, as detailed within TCR-1. The archaeologist shall monitor the remainder of the project and implement the Plan accordingly.	During construction/ ground disturbing activities.	Notification of the City of Lancaster and appropriate tribal entities.	Community Development Department (Planning)			
10	If human remains or funerary objects are encountered during any activities associated with the project, work in the immediate vicinity (within a 100-foot buffer of the find) shall cease and the County Coroner shall be contacted pursuant to State Health and Safety Code §7050.5 and that code enforced for the duration of the project.	During construction/ ground disturbing activities.	The City of Lancaster and County Coroner shall be immediately notified in the event that human remains, potential human remains, or funerary objects are discovered during any activities associated with the project.	Community Development Department (Planning)			
11	If human remains or funerary objects are encountered during any activities associated with the Project, work in the immediate vicinity (within a 100-foot buffer of the find) shall cease and the County Coroner shall be contacted pursuant to	During construction/ ground disturbing activities.
