From: Jeff Hogan, Senior Director - Development Services

Subject: Lancaster Lighting Maintenance District - Levy of Annual Assessment for Fiscal Year 2020-2021

---

**Recommendation:**

Adopt **Resolution No. 20-28**, confirming the diagram and assessments, and ordering the levy of an assessment in the Lancaster Lighting Maintenance District for Fiscal Year 2020-2021.

**Fiscal Impact:**

Each benefit unit will be assessed \$108.04, which includes a 3.36% CPI adjustment (\$45.00 in zones that voted "no" during the 2003 election). A total of \$5,453,856.02 will be assessed against the benefiting properties, which will be used for maintenance expenses.

**Background:**

On March 11, 2003, the City Council directed that an election be held asking the property owners within the Lancaster Lighting Maintenance District (LLMD) to approve an increase in the annual street lighting assessment to \$70.00 per lighting unit, including a Consumer Price Index (CPI) based inflator. On July 8, 2003, the City Council announced results of the election to approve the increase in annual assessments within the City's lighting maintenance district. The results of the tally of the election were that out of 104 zones, nine zones, namely zones 27, 30, 49B, 51B, 51D, 65B70A, 89B and 103 failed to receive voter approval. Following the results of the original vote, and with the street lights being turned off, property owners within three zones that voted "no", namely zone 27 split into zones 27A and 27B, zones 30, split into zones 30A and 30B, and zone 89B split into zones 89B-1 and 89B-2, submitted petitions to the City to initiate another voting process. The City Council adopted resolutions initiating proceedings for the levy of additional assessments, and notices of public hearing, and assessment ballots were mailed to the affected property owners within these zones. The three elections processes were successful and the City Council approved the levy of additional assessments at the October 28, 2003, November 11, 2003 and January 27, 2004 Council meetings.

Lancaster Lighting Maintenance District was formed, including subsequent annexations thereto, for the purpose of financing maintenance operations and installation of public lighting facilities, including, but not limited to street lights, traffic signals, public parking lot lights, and highway safety lights (public lighting facilities) (as defined in § 22525 of the California Code) within the City of Lancaster, and assessing those properties, which benefit from this service their proportionate share of the cost. Each year, the City Council must, by law, order the preparation of an Engineer's Report describing the existing and proposed maintenance services, and conduct a public hearing to establish and order the amount of assessment for the next fiscal year.

The assessment for Fiscal Year 2020-2021 is \$108.04, including a CPI factor for Los Angeles-Riverside-Orange County of 3.36% per lighting unit, except for those parcels within the zones that voted "no", as shown on in the Engineer's Report, which will remain at \$45.00 per lighting unit.

The street lighting improvements in the areas within the District will be maintained with funds generated by the Lighting Maintenance District. Each lot or parcel within the District that has been annexed as indicated on the diagram will be assessed a unit assessment of \$108.04 for Fiscal Year 2020-2021. Parcels within the zones that voted "no" will remain at a unit assessment of \$45.00.
